PROFILE

A multidisciplinary creative with over a decade of experience spanning graphic design, brand identity, and full-stack web development. Currently the sole creative and technical lead for a ten-property luxury hospitality portfolio, where the role has grown from graphic design into front-end development, IT problem-solving, and AI-augmented production workflows. Equally at home directing high-profile brand campaigns in an agency setting and shipping production code as a freelance full-stack developer, with a strong command of industry-standard design and development tools.

EXPERIENCE

Graphic Designer · Soroi Collection

2026 – Present (fixed-term contract)

- Brought on as sole graphic designer for a ten-property luxury safari hospitality portfolio; role has since expanded into front-end development, IT problem-solving, and creative-operations tooling.
- Designed and deployed an AI-driven production pipeline (Claude for direction, Claude Code for execution), turning one-off design requests into a repeatable, reviewable workflow across print, digital, and web deliverables.
- Rebuilt static, 130MB-plus guest information PDFs into lightweight, QR-scannable single-page live guides per property, displaying real-time weather and moon-phase data.

Freelance Creative Designer & Web Developer · Independent

2024 – Present

- Delivered 10+ production websites as Creative Lead/Full-Stack Developer and Web Designer & Developer, using Next.js, React, TypeScript, Tailwind CSS, and Node.js — including Chez Doneo, Art Safari Retreats, Leonardo's Diani, Bandeja, and O-KIA Coffee.
- Managing client relationships, project scoping, and delivery independently across concurrent projects.

Senior Creative · GameChanger Marketing

2021 – 2024

- Progressed from Junior Creative to Senior Creative, taking on increased responsibility for concept development, art direction, and campaign execution.
- Led the design and production of multi-channel marketing materials for a diverse client portfolio spanning print, digital, and social media.
- Brand campaign and activation work included VISA (FIFA World Cup), Nivea (Beiersdorf), Monster Energy, Don Julio (Diageo), TotalEnergies Kenya, and Java House.
- Collaborated closely with account managers and copywriters to deliver cohesive brand-aligned creative work on tight deadlines, while mentoring junior team members.
